Annual Report 2000

The WasteCap 2000 Annual Report is nearing completion; we expect it to hit the press mid-February. Thank you all for the timely volume reports! In addition to a report of the total volume of material recycled by the entire INFORM coalition, we've highlighted success stories and new members. The director will schedule appointments individually to discuss your level of satisfaction with the services provided by WasteCap and take any suggestions. Let us know if there are services we have missed or opportunities for recycling you would like to see explored. Thank you for your input!
