Environmental Webcast

Lecture Series

Sponsored in part by:

Nebraska  
Department  
of Environmental  
Quality

## **Lecture 1: Energy Conservation and Cost Saving Strategies for Business— June 20, 2007, 1:00– 2:30 p.m. CT**

Kirk Conger with Facilities and Maintenance at the University of Nebraska-Lincoln will give a powerful presentation discussing energy conservation strategies for business. With current high energy costs and the need for alternative energy sources, this timely presentation will provide you with:

- strategies for reducing Peak Energy Usage
- efficiency differences between various lighting types
- Useful tools for energy conservation activities in your business

His presentation is will you provide you the insight and information needed to reduce energy usage and save your business money.

## **LECTURE 2: Understanding Universal and Hazardous Waste Regulations— July 11, 2007, 1:00– 2:30 p.m. CT**

Don Gansert, a consultant with Trinity Environmental Consulting, will provide an excellent overview of the various local, state and federal regulations governing hazardous materials management in business. His presentation will discuss US EPA's federal RCRA requirements, Universal Waste Rules both federally and locally and how these regulations affect your business. You will learn proper management and recycling or reclamation of these materials.

- Which materials are regulated under RCRA?
- Which can be Managed as Universal Wastes?
- Are Nebraska's regulations different than federal regulations?
- How Do I keep my business in compliance?

## **LECTURE 3: Resource Management and Solid Waste Contracting for Savings— August 8, 2007, 1:00– 2:30 p.m. CT**

Attend this webcast to learn how to get the most from your waste and recycling contracts by creating performance based contracts that tie financial incentives to measurable goals. "Resource Management" contracting has been tested and implemented in a variety of settings over the last 8 years. It is an innovative waste management contract model that is transforming the waste management industry by changing how waste-related companies define the value of their services and the way they generate profit.

Our line-up of speakers include Peggy Harlow with the Massachusetts Dept. of Environmental Protection's Commercial Waste Reduction Program, Renee Burman, an Environmental Policy Coordinator with Minnesota's Dakota County Environmental Management and Tom Votta, Deputy Director for that program, the [Chemical Strategies Partnership \(CSP\)](#).

## **LECTURE 4: Liability and Identity Theft Protection for Computer Recycling— August 29, 2007, 1:00– 2:30 p.m. CT**

Jaimee Napp is the Executive Director of the Identity Theft Action Council of Nebraska, iTAC is the first nonprofit organization dedicated solely to identity theft issues and assisting victims in Nebraska. Rich Troia, owner of i-manage, an Omaha-based IT support company and i-recycle, an Omaha-based electronics recycler as well as an Omaha attorney will fill you in on how to protect your business from potential liability.

What are the liability issues associated with recycling old computer equipment? Environmental liability? Chain of Custody? How safe is my computer recycler? Meeting HIPAA and FACTA Compliance? Identity Theft issues? These and many more questions will be answered in this session related to proper disposition and management of electronics.
